Returned, with compliments, to the General Secretary to Government

10 2 The estimate for the maintenance of the Shimoga Water Works, is put up It amounts to Rs 18,394/-

11 3 This estimate was duly considered in the Municipal Council and it was resolved that the provision of Rs 1,500/- on account of moiety of pay of Engineer Officer might be deleted, and the balance of Rs 16,894/- provided in the Municipal Budget (vide copy of President's letter enclosed)

12 4 Now as it is under contemplation to take over the water works from the Municipality, the provision of Rs 1,500/- referred to above has to be retained

13 5 The estimate amounting to Rs 18,394/- is not capable of any reduction, the provisions made therein being quite necessary and may be sanctioned

SHIMOGA WATER WORKS

Sir

Adverting to Chief Engineer's inspection notes of the Shimoga Water Works received with his D O No 568 dated the 26th June '28 I have the honour to state that extracts therefrom were placed before the Municipal Council at their special meeting held on 13th July 1928 A copy of the resolution passed thereon is herewith forwarded for favour of perusal and orders of Government being obtained on the following points --

(1) Handing over the entire water works tentatively for a period of six months to the Public Works Department till efficient working of the new engine and pump and satisfactory supply of water in the town is ensured subject to the conditions mentioned in the resolution

(2) Transfer of the distribution system also during the above period

(3) Sanction of half the cost of a high level reservoir

2 In this connection I may state that when the project for the new water supply scheme was prepared the council were given to understand that the annual maintenance cost of the new installation would not exceed Rs 12 8000/- but from the estimate now received from the Executive Engineer Water Supply Division the charges have been estimated at R 18 000/- including Rs 1 500/-

i e the moiety pay of the Engineer Officer I would suggest that the pay of the Engineer Officer be fixed at ~ 2 400/- half of which would be debited to annual maintenance estimate and the other half to the head 'D Public Works" Establishment charges in the Municipal Budget

3 Even allowing a margin of about Rs 1 C00/- on account of the market fluctuations and other unforeseen circumstances the expenditure may be kept at Rs 13 800/- which with the moiety pay of the Engineer Officer viz Rs 1 200/- would be Rs 15 000/- I consider that this is a fair estimate and the Chief Engineer may be requested to kindly issue necessary instructions in the matter so that the expenditure may be kept down to this extent

4 I request that early orders may be kindly passed on the above proposals

I have the honour to be

Sir

Your most obedient servant

Deputy Commissioner

Shimoga District

Letter No 49 dated 17th July 1928 from the President, Shimoga Town Municipal Council to the Deputy Commissioner, Shimoga District

****

With reference to your letter No A 3 1391/27-28 dated 11th July 1928 forwarding for needful action a copy of notes of inspection of the Water Works at Shimoga by the Chief Engineer, I have the honour to state that the Note was placed before the Municipal Council at a Special Meeting held on the 13th July 1928 The Council after a careful consideration of the subject in all its aspects passed the following resolutions --

(1) Resolved that as agreed to by the Leading Citizens of Shimoga at the meeting held on 24th May 1928 at which the Chief Engineer was present the management of the Water Works of the Shimoga Town Municipality be handed over tentatively for six months in the first instance to the P W D (Water Supply Division) subject to the condition that the maintenance cost during the period will not in any case exceed the proportionate amount of annual maintenance charges calculated on an average of three years basis especially having regard to the fact that when the Municipality accepted the Scheme it was given to understand that the maintenance cost would not exceed Rs 12 000/-

(2) Resolved further that along with the transfer of the management of Water Works the temporary transfer of the distribution system also be made over to the P W D subject to the condition that no new water connection to private houses will be given without the sanction of the Municipal Council

(3) Resolved that arrangements be made to raise a loan of about Rs 12 500/- locally with a view to meet a moiety of the cost of constructing a high level reservoir the cost of which is estimated to be Rs 25 000/- the Government of His Highness the Maharaja of Mysore being requested to graciously contribute the remaining half of the estimated cost

2 I request you to be so good as to obtain sanction of Government to the transfer of the Water Works to the P W D as suggested by the Chief Engineer who may also be requested to intimate the amount required for the construction of a High level Reservoir so that early action may be taken in the matter of collecting funds therefor

Sir

I have the honor to submit herewith an Annual Maintenance Estimate for Rs 18 304/- in respect of Krishnaraja Water Works Shimoga for the year 1928-29 received from the President of the Municipal Council Shimoga. This estimate provides also sum of Rs 1 00/- towards the Poiet Pay of the Engineer Officer. The Municipal Council have made a provision of this total sum in the Budget Estimates for the year 1928-29 as sanctioned in Government Order No I 755-6/Pl 506-27-77 dated 23-7-1928. A copy of the resolution passed by the Municipal Council at their meeting convened on 27-7-1928 is enclosed for favour of perusal.

It is requested that the estimate may be kindly sanctioned at an early date.

I have the honor to be

Sir

Your most obedient servant

Deputy Commissioner

X X X X

E (2) Water Supply

The provision of Rs 16,894/- (after deducting Rs 1,500/- i e moiety pay of Engineer Officer) as per Estimate received from the Executive Engineer, Water Supply Dn may be retained subject to the consideration of the whole question of water supply to the town to be discussed later on at a special meeting of the Municipal Council when the question of transfering the control over water works to Government for a temporary period may be dealt with as proposed by the Chief Engineer at a Public meeting of the Citizens of Shimoga held last month

Further the anticipated reduction in the cost of maintenance charges referred to in the earlier recorded proceedings of the Council have not been realised, on the other hand the present estimates are one and half times the anticipated expenditure when the present plant is brought into working order The whole question requires thorough examination Pending this, the provision be retained at Rs 16,894/- and with this modification the Estimate of the Executive Engineer, Water Supply Division be accepted

To

R Ranga Rao Esq B A B L
Secretary to Government General Department
Bangalore

Sir

I have the honour to invite kind reference to this office letter No A C 1391/27-28 dated 4 h August 1928 requesting to obtain orders of Government in the matter of the transfer of the control over the Shimoga Water Works as resolved by the Municipal Council at their meeting held on 13th July 1928 (copy of which was submitted to Government) to the Public Works Department and to state that orders of Government have not yet been received in the matter The Chief Engineer has in his letter No 2119 dated the 31st August 1928 stated that as the water works have been taken over by the Public Works Department Mr C B A Narasimhaiengar may be reverted immediately to his substantive appointment as there seems to be no necessity to retain such a highly paid Officer in addition to the man now in charge of the water works for the ordinary works of the Municipality A copy of this communication is herewith submitted for perusal Now that Mr C B A Narasimhaiengar has applied for privilege leave in continuation of Dasara holidays I have sent his leave application to the Chief Engineer and requested him to withdraw Mr Narasimhaiengar from the Municipality and to kindly make suitable arrangements for the charge of the water works and also for carrying out the ordinary Municipal Engineering works

2 This however will have to be a temporary arrangement as the question of having two highly paid officers in the Municipality would necessarily arise when the water works are taken over by the Public Works Department Either the Chief Officer will have to go or the Municipal Engineer will have to go I shall consult the Municipal Council in this matter and submit definite proposals by the beginning of next year by which time the special work of revising assessment and collecting arrears entrusted to the present Chief Officer will be nearing completion Meanwhile I request that early orders transferring the water works to the Public Works Department may be passed

I have the honour to be
